# Equipping Teenagers for Financial Success

---

Every day we are bombarded with ways to spend our money. The TV ads don't say, "Buy this only if it fits in your budget". Many families are living from pay check to paycheck with no financial reserves for emergencies. This puts a lot of stress on the whole family.

Winning the Money Game will help our kids to get out of the financial trap. Our kids want be going to the teller machine to see how much money they have. They will learn how to prepare for life's emergencies. They will know how to make the right financial decisions. Through our special program many of them will receive community service hours for attending our seven week course.

Topics Covered:

Financial Goals

Creating a Financial Plan

Spending Wisely

Understanding Payroll Taxes

Creating a Budget

Costs of Living Independently

Rule of 72

Investment Opportunities

Credit Good or Bad?

Credit Scores

Managing a Checking Account

Debit and Credit Cards

Insurance

Choosing a Career

Education Funding

Job Benefits

And more

- You don't have to born with a lot of money.
- If someone will give you money or knowledge, which will you choose?
- Pay your bills before you eat.
- Always think before you act, especially in money decisions.
- Each day we are presented a new opportunity to take the right action.
- It is never to late to make the right choice for life and for finances.
